

"GIZA" BITS

PATENTED P.

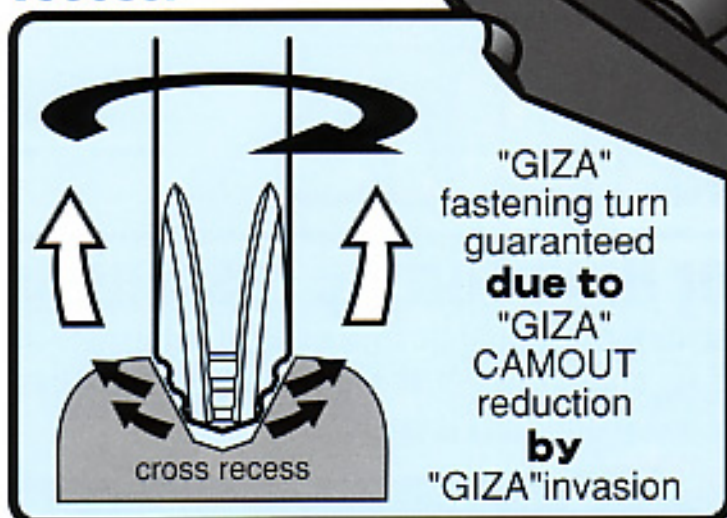

Free from crushed screw head!

Unique designed
"GIZA" shaped recess
blades

"GIZA" has the strength of Pyramid steps, and it means "Biting edges" or notched in Japanese language.

Efficient for... small screws,
wood screws and hard
tapping screws at
housing, etc...

Aggressive bite
into the screw
recess!

Prevents cross-recess drive "FLOATING" due to the biting the wall inside of the screw.

Power Driving for High Torque!
