

# Magnetic Screw Catching System

## Magnetic Screw Catcher (For power tools)

For sinking screws in construction and civil engineering work (i.e., joists and planks, interiors, etc.). A strong magnet assuredly holds screws, therefore can be used with long screws.

### Strong Magnet

Assuredly holds even long screws so that users can work one-handedly. Also prevents screws from dropping. Oblique tightening OK.

### Compact and Lightweight

Made of aluminum. Weights only 3 g. Does not stress users during work.

### Easy to See tip

Bit tip is easy to see, making it easier to fit the screw hole.

Automatically catches screws as it is approached.
